SANPC/467/07/2026	RFQ- SANPC requires a service provider to monitor the groundwater networks at the Saldanha and Milnerton Tank Farms for a period of 24 months	
-------------------	---	--

1. BACKGROUND

The South African National Petroleum Company (SANPC) is a subsidiary of the Central Energy Fund (CEF).

SANPC manages storage facilities in the Western Cape at Milnerton, outside Cape Town, and at Saldanha Bay. The Milnerton and Saldanha Terminals consist of fuel storage tanks used for the storage of strategic crude oil.

A groundwater monitoring network has been installed in both terminals to determine groundwater quality and any contamination that could result from the subsurface contamination associated with hydrocarbon release.

The National Environmental Management Act (NEMA), 1998 (Act No. 109 of 1998) requires all operating entities to develop an environmental management system that will showcase commitment to safeguarding the environment in the area within which they operate. All facets of environmental control must be carried out to minimize any potential environmental impact.

A process representing a streamlined approach for the continual assessment of the monitoring network is required. The process must be aimed at integrating risk assessment practices with traditional site investigation and remedy selection activities, in order to determine cost-effective measures for the protection of human health and environmental resources.

The groundwater monitoring wells at the terminals have been constructed to acceptable industry standards and were surveyed to determine their (x,y,z) locations, which were also used in conjunction with groundwater level measurements to calculate groundwater gradients.

ANNEXURE 5

Certificate of Independent Bid Determination (SBD 9)

- 3.1. This Standard Bidding Document (SBD) must form part of all bids¹ invited.
- 3.2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a *pe se* prohibition meaning that it cannot be justified under any grounds.
- 3.3 Treasury Regulation 16A9 prescribes that accounting officers and accounting authorities must take all reasonable steps to prevent abuse of the supply chain management system and authorizes accounting officers and accounting authorities to:
- disregard the bid of any bidder if that bidder, or any of its directors have abused the institution's supply chain management system and or committed fraud or any other improper conduct in relation to such system.
 - cancel a contract awarded to a supplier of goods and services if the supplier committed any corrupt or fraudulent act during the bidding process or the execution of that contract.
- 3.4 This SBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.
- 3.5 In order to give effect to the above, the attached Certificate of Bid Determination (SBD 9) must be completed and submitted with the bid:

¹ Includes price quotations, advertised competitive bids, limited bids and proposals.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.
